

Refund & Replacement Policy

NorthStar Commerce — Customer Operations | POL-CX-001 | Effective Jan 2026 | Owner: CX Policy Team

1. Purpose & Scope

This policy governs how Customer Operations resolves claims where a customer reports an item as not received, damaged, or incorrect. It applies to all consumer orders fulfilled through NorthStar warehouses and third-party carriers.

2. REFUND-LOWVAL — Low-Value Delivered-Not-Received

Orders under \$100 marked "delivered" by the carrier but reported as not received by the customer may be refunded or replaced automatically, provided the customer has a clean claim history with no prior refund abuse. No manager approval is required for these low-value cases, and agents should resolve them in the customer's favor to protect satisfaction.

3. REPLACE-PREFERRED — Replacement Preferred Over Refund

For delivered-not-received claims on items under \$150, a replacement order is the preferred resolution over a cash refund. Replacement preserves revenue and keeps the customer within the fulfillment flow. A cash refund should be offered only when the item is out of stock or the customer explicitly requests a refund instead of a replacement.

4. Return Labels

For damaged or incorrect items, generate a prepaid return label and issue the replacement once the return is scanned by the carrier, unless the item value is under \$25, in which case no return is required.
