

Shipping Delay & Compensation Policy

NorthStar Commerce — Customer Operations | POL-CX-002 | Effective Jan 2026 | Owner: CX Policy Team

1. DELAY-COMP — Carrier Delay Goodwill

When a shipment is delayed beyond 7 days at the carrier, agents must proactively send the customer a status update and offer goodwill compensation in the form of store credit. A refund should not be issued for a delay unless the customer requests order cancellation.

2. Goodwill Credit Schedule

Use the following store-credit guidance based on the length of the delay measured from the original estimated delivery date:

Delay Window	Goodwill Store Credit
7 to 14 days	\$10
15 to 21 days	\$20
22+ days	\$30 or order cancellation on request

3. Proactive Communication

Where a known carrier or warehouse disruption affects a shipment, the customer should be notified before they contact support. Proactive notification reduces inbound contacts and improves satisfaction during disruptions.
